

DEBURRING TOOLS FOR SLOTTING ATTACHMENTS OF B&S AND SWISS MACHINES

These high speed steel circular deburring tools fit the slotting attachment of B&S Screw Machines and Swiss Machines and remove cut-off burrs from the back end of the part completely, smoothly and uniformly.

The O.D. of the deburring tool is slightly crowned and the teeth are radial (without clearance) so as to only remove the cut-off burr without digging into the part.
